A Real Call of Duty...

Imagine having the Island's biggest indoor soft play area to yourself for an evening - full of theatrical smoke and lighting effects, pumping music and two teams of 10 players hurling themselves around the place with laser guns!

Welcome to Laser Storm at JR Zone - every youngster's dream party night out!

Safety Briefing

Before the fun begins, a short safety briefing and demonstration is given by friendly staff.

Teachers can then decide the format for the evening - this will depend somewhat on the numbers involved but almost invariably ends up with some of the adults joining in with the action!

Optional Catering

Squash is provided for the children, and teas/coffees for the adults. It's thirsty work, so the jugs will be topped up frequently.

JR Zone, however, is famous locally for its excellent event catering packages.

Many schools therefore opt to have a "party night" at JR Zone instead of dinner at the hotel, choosing from hot or cold buffet menu choices.

Just let us know what you want to do and we'll take care of the arrangements!

Don't Fancy Laser Storm?

Younger children may find laser storm a little difficult to manage - so instead why not just use the soft play space? There's age-appropriate activities for all.
