How Things Used To Be...

Party night is always one of the most anticipated aspects of a residential trip.

When Education Destination first started we were saddened to discover what was passing for “a disco” in many of the resort hotels we planned to use. In many cases it was little more than someone playing streamed tracks over a bluetooth speaker with a couple of flashing bulbs.

So we decided to do things differently!

Professional DJs

We employ specially selected professional mobile DJs to attend our party nights instead.

Not just any mobile DJs, but those with a great track record of entertaining at children’s parties and such events.

They also come with modern, high quality PA and lighting equipment that wouldn’t look out of place at a wedding.

2 Hours of Full-on Fun!

Our DJs are interactive and will endeavour to involve all of the children (and teachers!) in action dances and fun games (age dependent of course) as well as playing their music requests.

All music will be “Radio Edits” - clean versions of songs with bad language removed for radio broadcast, and they will also avoid specific tracks with undesirable lyrics.

They’ll happily take guidance from the teachers on the night, but if you just want to relax you can trust our DJs to deliver a fun evening without any direction.

Sessions are usually timed to start at 19:30, allowing plenty of time to change into party gear after dinner, and wrap up by 21:30.
