

Use Your Senses!

How much can you learn about where an animal comes from?

Student Introduction

Experience the habitat of different animals using your senses!

Using Your Senses...

Describe and draw what you:

Feel

See (look up too!)

Hear

Smell

This is what a tropical rainforest is like.

How is it different?

Where in the World?

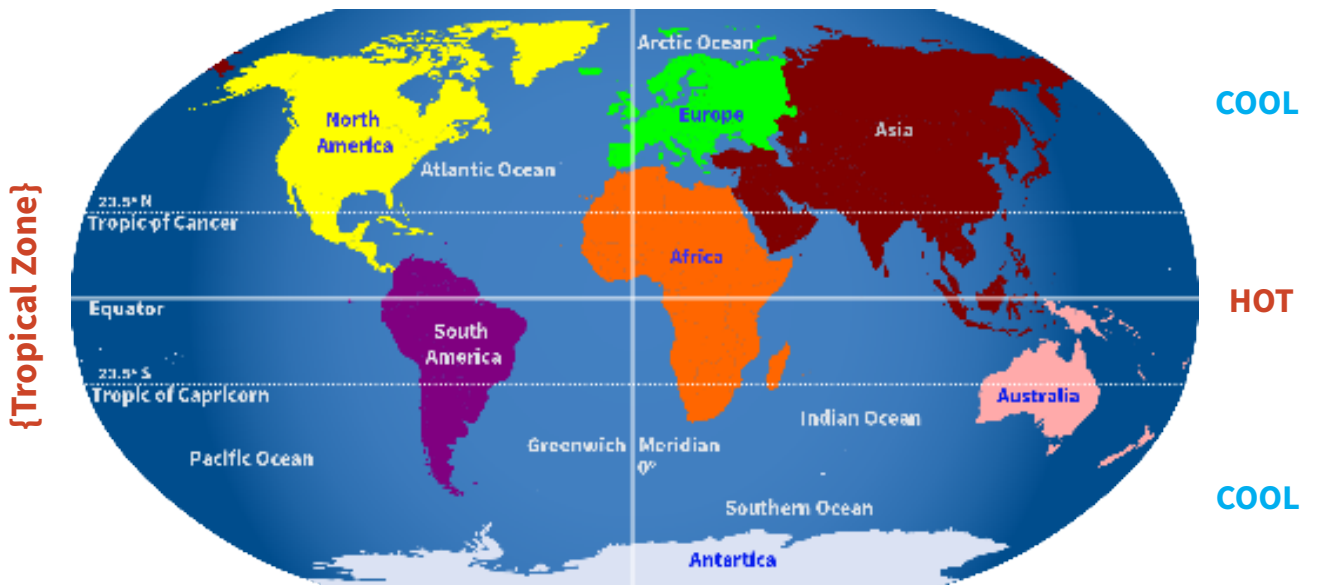

Find and name the animals!

Draw lines to where they live on the map.

Find your own...

Outside: Find these animals.

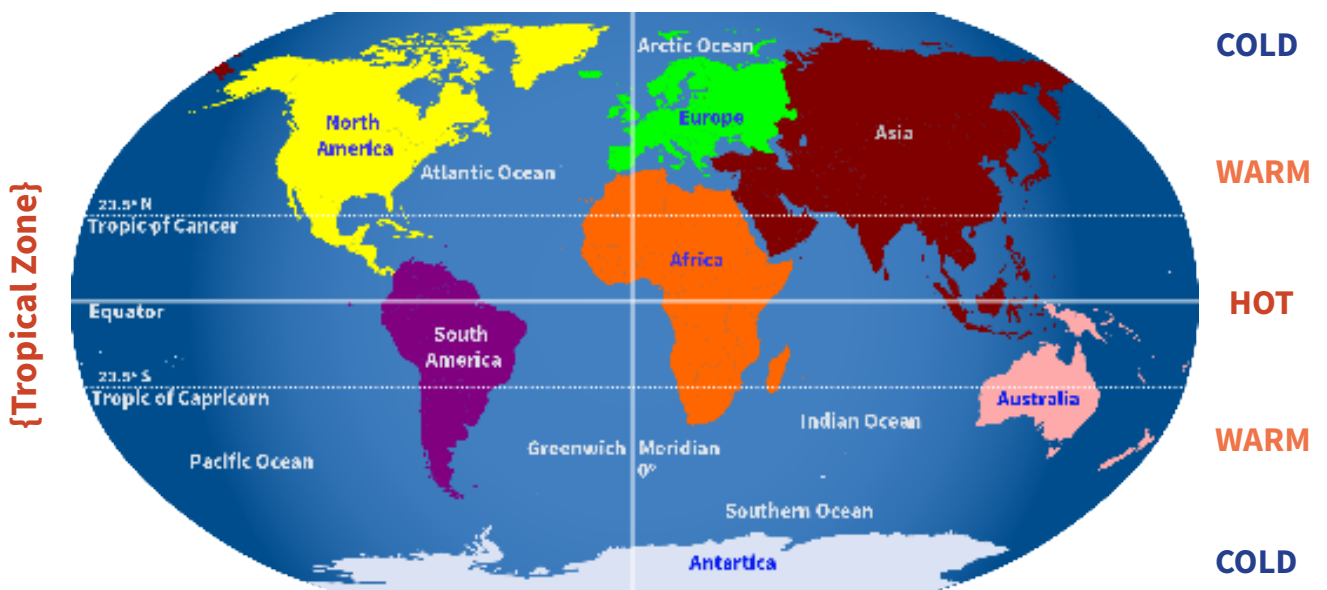

Name them and show where they live on the map.

Add your own!

CHALLENGE!

It is cooler away from the Equator and high up in the mountains.

Find the animal that lives in the mountains of Asia.

Draw a picture:

Find the animal that lives on the grasslands of Australia.

Draw a picture:

Most animals in this zoo live in which continent?

Find an animal that is found in more than one continent?

Which is your favourite animal?
